PUBLIC HEARINGS:

Reasonable Accommodation Permit Appeal – Mayor Aguilar opened the public hearing and called for a report from Manuel Baeza, of the Development Services Department, for background on an appeal of a Minor Exception Permit Committee (MEPC) decision to deny Reasonable Accommodation Permit No. 6 (variance) concerning a request to allow a five foot reduction in the required ten foot side yard setback pursuant to section 18.40.130 of the Redlands Municipal Code (RMC), and to exceed the maximum lot coverage permitted pursuant to section 18.40.100 of the RMC to allow construction of a bathroom addition to a single family dwelling located at 714 Brentwood Place in the R-S (Suburban Residential) District. The applicant, Madeline Hendershot, reviewed events leading to the current structure on her property, presented plans for altering that structure to comply with a five foot setback and articulated mitigating factors for consideration in deciding the appeal. As a public comment, several neighbors to the Hendershot property spoke both in favor and against approval of the accommodation. Discussion centered on the fact that all work done to date on this renovation had been done without regard for the code or the permitting process. On motion of Mayor Pro Tem Foster, seconded by Councilmember Harrison, the City Council voted to continue the public hearing to May 21, 2013 at 6:00 P.M. and directed staff to prepare a resolution for the denial of Reasonable Accommodation Permit No. 6 for the Council’s consideration at that time. Councilmember Gilbreath voted No on the motion.

Greg Fitchitt, Howard Hughes Corporation Vice President for Development, spoke in support of the application and stated his company was currently looking at two options for the property. They are reviewing purchase offers from prospective buyers of the property and evaluating the option to develop the property for their own use. Either option will require an extension on the CUP. A motion of Councilmember Gilbreath, seconded by Mayor Aguilar, agreeing an extension of CUP No. 905 does not require further environmental processing in accordance with California Environmental Quality Act guidelines and approving an extension, to May 15, 2014, for CUP No. 905 was defeated by a vote of three to two with Mayor Pro Tem Foster and Councilmembers Harrison and Gardner voting No. When offered an opportunity to commit to allowing the construction of a monument sign on the property to welcome visitors to the City of Redlands, Mr. Fitchitt stated the design of such a monument would have to wait until development plans for the property are finalized. On motion of Mayor Pro Tem Foster, seconded by Councilmember Gardner, the City Council voted to agree an extension of CUP No. 905 does not require further environmental processing in accordance with California Environmental Quality Act guidelines and approved an extension to October 17, 2013, with the condition that if the applicant filed for and received approval of a CUP amendment relating to the entry way sign at issue, then the CUP extension would automatically be extended for an additional 6 months. Contract Termination – Cal Davis, of the Municipal Utilities and Engineering Department, provided the background on a request to terminate a contract for the Brookside Avenue Water Pipeline Replacement Project. As a public comment, Steve Rogers suggested that if the contractor’s failure to perform was due to saturated soil conditions beyond the contractor’s control, the termination may be unfair. On motion of Mayor Pro Tem Foster, seconded by Councilmember Gardner, the City Council unanimously approved the termination of a contract between the City of Redlands and Christiansen Pipeline, Inc. for the Project.
