For immediate release:

Council to participate in 2008 Goals and Objectives Workshop

The City Council will hold a Goals and Objectives Workshop during the evening session of the March 18 City Council meeting to review progress on the city's 2007 goals and objectives and add to or refine the goals and objectives for 2008.

Council members and city department heads will participate in the 6 p.m. meeting. Redlands TV will deliver a live broadcast of the workshop on Channel 3 (Time-Warner cable customers) and 35 (Verizon cable customers).

Professor James Spee, from the University of Redlands, will act as facilitator to assist the council and staff in modifying goals, creating objectives and developing priorities.

The 2007 workshop created distinct goals that staff continues to work toward. These distinct goals will be reviewed and modified for 2008. The balance of the workshop's time and focus will be placed on developing actionable objectives for staff to pursue over the coming year.

The public is invited to attend and participate in the workshop. Anyone interested in submitting suggestions is invited to email them to goals2008@cityofredlands.org.

The workshop will be held at 6 p.m., March 18, in the City Council Chambers, 35 Cajon St.
