

City of Redlands  
2006-2007  
Adopted Budget

Municipal Utilities  
Solid Waste

**Program Descriptions:**

The Solid Waste Utility operates automated refuse, recycling, and greenwaste collection for approximately 18,000 single-family residential units. Commercial bin service is provided one to six days per week to 800 customers and commercial recycling service is provided to approximately 300 businesses. Roll-off bin service is provided using 160 roll-off bins, which are rented on a weekly basis. An un-staffed drop-off center is provided at the City Yard for residents and businesses who don't otherwise have an opportunity to recycle. As a community service, the Solid Waste Utility provides cleanup of illegal dumping; free community clean up events for household waste, used tire, scrap metal, and electronics recycling; subsidized backyard composting containers and training; educational activities with schools; and other solid waste education, including recycling and waste reduction for residents and businesses in Redlands.

The Solid Waste budget is presented in fourteen programs, including administrative and general, engineering, landfill operations and maintenance, landfill quality control, residential and commercial collection, and recycling.

**Program Objectives:**

- Comply with all local, state, and federal regulatory requirements (e.g., AB 939 State mandated waste diversion, landfill operating requirements, etc).
- Provide cost effective, high quality service to all solid waste customers

**Significant Changes:**

None
